

EHS POLICY

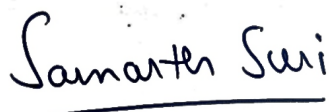

At Quality Asia Certification Private Limited, we conduct our operations in a manner that protects the environment, ensures the health & safety of our employees and complies with applicable regulations.

We are committed to

- Minimise the environmental impact and occupational risks of our operations through sustainable practices and the responsible use of resources.
- We engage with stakeholders, including employees, clients, and regulatory bodies, to promote a collaborative approach to EHS.
- Our EHS practices are integrated with our Quality Management System, ensuring a holistic approach to organisational excellence
- Strive to conserve natural resources including energy and reducing waste generation, thereby protecting the environment.
- Employees receive ongoing training to ensure they are aware of and competent in handling potential occupational health and safety risks.
- Evaluate and continually improve our Health, Safety and Environment performance in order to achieve the EHS benchmark.

This commitment is fundamental to our values and integral to our business success.
